Interesting and Perhaps Startling Development-The Sheriff's Report on the Occurrences at the Parish Prison.

New OBLEANS, La., March 19 .- Thom Messra. Carson, Moncure & Co., of Richmond, have purchased the lot of land fronting on Stockton, Decatur, and Twenty-first streets and the Richmond and Petersburg railroad, embracing 1,018 feet, for \$12,360. Three years ago this property was sold for \$2,300, and again on the 30th of last May for \$6,000. It is understood that the purchasers contemplate in the near future to engage in a manufacturing enterprise. C. Collins was before the grand jury to-day to testify in the investigation now being made concerning the bribery of the jurors in the Hennessey case. Collins, though employed in the office of Private-Detective O'Malley, was in fact an officer of the secret service, duly commissioned by Mayor Shakespeare, the legal head of the police of New Orleans.

Interesting if not startling developments are expected. Another case, somewhat similar to the Collins job, was attempted, but from some unknown cause went amiss. A DETECTIVE PROM ITALY.

The most important business to-day was the appointment of Messrs. T. H. Murray. H. Frice Williams, Robert Pelham, D. A. Rudd, and John C. Dancy a committee to visit President Harrison and urge him to appoint a colored man on the Columbian Exposition Commission; also, to urge the claims of a colored man for one of the judges of the nine judical districts recently created. The committee will meet in Washington next Monday. To-night the delegates enjoy a banquet at Armory Hall tendered by the colored people of this city.

The Committee on Wavs and Plans re-ort protests against any idea of expatra-ion, but does favor emigration from the tion, but does have emigration from the overcrowded districts of the South to the West and Southwest. It denounces as an outrage the "Jim-Crow car" and all other discriminations practiced in places of public amusement and accommodations.

It insists that the honest senti-ment of the country sympathizes with and favors the honest administration of the laws, but that for some reason it seems as if the people at large have ceased to con-sider the seriousness of the problem made when Lee surrendered to Grant.

NEW YORK STOCK MARKET. NEW YORK, March 19.—The dulness in the stock market to-day exceeded that of any day fersome lime, and only in St. Paul, Burlington, and Com-tock Tunnel was there any animation whatever.

The tone of dealings was inclined to weakness, but fluctuations were in the main so slight that no marked tendency in prices was to be detected NO PLUCTUATION OF INPORTANCE.

NO FLUCTUATION OF INFORTANCE.

Stocks continued to dribble out, but the demand was sufficient to prevent any real weakness, and we must go into the mining stocks in the unlisted department to find a fluctuation of more than a small fraction for the day. The activity is St. Faut and Burlingson and Quincy was much less than usual of late, while the general list was simply neglected. The sentiment that there will be further orders of gold for export, with reactions in western stocks, cansed the only movement of importance for the day after 1 P. M., when the aggregate losses reached as high as 1 per cent, in some stocks. In the unlisted department there was active trading and decided strength in Constock Tunnel and Phoenix, each of which advanced about 10 per cent.

A slight raily followed the downward move-ment of the afternoon and the market finally closed dull and fairly steady at the close to the lowest price but with fractional lowes from last night's prices in everything but Canadian South-ern, which is down I per cent. The sales of listed stocks aggregated \$60,000 shares and of unlisted stocks, 34,000.
